

AUDIT: WINTERIZING YOUR HOME

[EXTERIOR] HOME:

- Roof - look for damaged shingles, clean out your gutters and roof of debris, etc
- Siding - Check for gaps, inconsistencies where water could compromise
- Windows / Doors - ensure all windows are working properly, check weather stripping, seals, & interior / exterior caulking
- Misc Ext - inspect outdoor lighting for loose fittings

[EXTERIOR] YARD:

- Irrigation - Blow Out Irrigation Lines
- Lawn / Shrubbery - Keep lawn well kept, aerate, fertilize, check tree stability and mow...
- Supplies - Make sure you have a snow shovel and ice melt BEFORE winter comes

[INTERIOR] LIVING AREA:

- Vents / Filters - clean or replace your filters and vents, and more..
- Blinds / Window Coverings - window coverings can provide insulation for windows during cold nights
- Dust - dust your ceiling fan blades for a clean spin, switch your fan to reverse.
- Service Your Heat - Consider a servicing or sweep, and stock up on any materials you may need to keep your home cozy

[INTERIOR] CRAWL SPACE:

- Vents / Foundation - Cover your crawl space vents and look for foundation cracks or damage
- Crawl Space - Check the vapor barrier has ample coverage, look for signs of moisture and animals.
